

Boost your protection against COVID-19!

COVID-19 booster doses are the best way to maintain protection against severe illness from COVID-19. **The updated boosters offer better protection against newer Omicron subvariants.**

People **6 months and older** may be eligible for an updated booster.

Ages 6 months - 5 years

If a child received the:

- **Moderna primary series:**
 - Children **6 months - 5 years** are eligible to get an updated booster
- **Pfizer primary series:**
 - Children **6 months - 4 years** who completed the three dose series are not eligible for a booster
 - If a child has not completed the third dose of their primary series, they will receive a Pfizer updated vaccine for their third dose

When?

2 months after Moderna primary series or the first two Pfizer doses

Ages 5 and older

Everyone ages 5 years and older are eligible for a updated booster regardless of the number of booster doses you already received

- **Pfizer** updated booster available for everyone **ages 5+**
- **Moderna** updated booster available for everyone **ages 6+**

Your booster may be the same or a different vaccine brand as your primary series or previous booster

When?

2 months after primary series or last booster dose

Schedule a vaccine appointment today!

Available through healthcare providers, clinics, and pharmacies. Visit santacruzhealth.org/coronavirusvaccine, MyTurn.ca.gov, or call 833-422-4255 for scheduling.

Don't forget your flu vaccine!

You can safely get the flu vaccine at the same time as your COVID-19 booster.

Eligible for the Monkeypox (MPOX) vaccine?
