COVID-19 Testing in California – What You Need to Know

Test at home and keep your friends, family & community safe.

When should I test for COVID-19?

- 1. If you have any symptoms of COVID-19,
 - Test immediately, regardless of your COVID-19 vaccination status.
 - If your test is negative but you continue to have symptoms, test again 24-48 hours later. Low amounts of virus early in infection can be missed by a test, and the test can be positive a few days later.
- 2. If you have had <u>close contact</u> with someone with COVID-19,
 - Test when notified of exposure and 3-5 days after exposure, even if you have no symptoms.
 - Test immediately if symptoms develop.
- 3. **Consider testing before and 3-5 days after a gathering, a large event or travel,** especially if you are going to be around <u>people who are higher risk</u> (older adults, immunocompromised, unvaccinated people).

Where can I get an at-home test?

- 1. Get FREE tests with medical insurance at your local drugstore (in-store or online):
 - MediCal or Medicare bring your card to a pharmacy window.
 - Private insurance contact your insurance company for free tests or reimbursement.
- 2. Purchase from your local drugstore (in-store or online). Tests are usually about \$10 each.

Where else can I get tested?

Find a testing site online or call (833) 422-4255 or 211.

What if my test is positive?

You have COVID-19. Contact a health care provider to see if you are eligible for <u>COVID-19 treatments</u> to prevent severe symptoms, hospitalization, or death. Follow <u>recommendations to prevent spreading the disease to others</u>. Report your positive test on <u>canotify.ca.gov</u>.

If you have severe symptoms call 911 or go to the nearest hospital.

What if I cannot work because of COVID-19?

If you cannot work because you have COVID-19 or were exposed, you can <u>file a Disability Insurance (DI) claim</u>. If you cannot work because you are caring for a family member who has COVID-19, you can <u>file a Paid Family Leave (PFL) claim</u>. Both claims must have a note from a health care provider.
