On August 6, 2024, this writer while conducting a walk through to the Telecare facility a client approached me about leaving the facility. This client and this writer discussed the client's situation. This writer advised my client to file a writ of Habeas corpus and assisted the client in following through. (Who to speak to and the location of the office on the unit)

On August 6, 2024, a client approached me to complain about the lack of a shower curtain. This writer received permission to speak with staff. This writer spoke with the treating psychiatrist and the director of nursing. Through some investigation staff determined that the client was not under a denial of right of privacy and that staff simply did not replace the shower curtain after cleaning.

**7th Avenue Center**

On August 7th, this writer received a call from a resident who complained about her conservator. She explained that her conservator has not been responsive to her financial needs. This writer got permission to speak with the resident's conservator and the contact number. The conservator informed me that she was aware of the client's concerns and would be at the facility to meet with the client the following Thursday. This writer contacted the client with this information. She voiced appreciation for my actions on her behalf.

On August 18, 2024, this writer received a report of resident-to-resident abuse. The report alleged perpetrator was sent back to the county of origin. I attempted to speak with the reported victim, but he declined to meet with this writer. I obtained further information from the staff who reported that this resident did not want to contact local law enforcement and had been medically cleared by nursing staff
